PROFILE

I am a passionate and dedicated individual with a strong desire to build a career in web development. The intricacies of this field fascinate me, and I am constantly eager to expand my skills and knowledge. I have developed a solid foundation in web development and seek continuous growth. Additionally, I am a positive, collaborative person who enjoys working with new people and discussing emerging technologies.

PROFESSIONAL EXPERIENCE

Junior Software Engineer (Full Time)

TechnoNext Software Limited

September 18, 2025 – Present

Dhaka, Bangladesh

- Worked on **Foodi and Cartup**, two well-known live projects in Bangladesh — resolved live **UI/design issues** across **Cartup's admin panel**, built new features including **seller address validation** and **advanced query filtering**, fixed a recurring bug where **data failed to render after component updates**, and resolved numerous other production issues; also contributed to **Foodi's inventory module** design.
- Built the front end of a **Lunch Management admin dashboard** (Next.js 16, React 19, TypeScript, Material-UI) — menus, orders, employees, a **4-stage complaint workflow**, **QR-based check-in**, and downloadable reports.
- Built the end-user portal for **NextExtract**, a credit-metered **API-gateway SaaS platform**, including an **API catalog with a live “try-the-API” console**, using Next.js 16 (App Router), React 19, TypeScript.
- Implemented **authentication and route protection** on both products with **NextAuth.js / Auth.js (v4 & v5)** and **JWT**.
- Delivered a **7-route analytics dashboard (Recharts)** and real-time order/usage dashboards (**MUI X Charts**), backed by **Zustand, React Hook Form, Zod**, and a centralized **Axios** service layer.
- Followed a **feature-sliced / feature-based architecture** enforced by **ESLint**; added **next-intl** bilingual (EN/BN) support and **next-themes** dark mode; translated **Figma** designs into responsive UI.

Junior Front-End Developer (Full Time)

Sayburgh Solutions Limited

April 30, 2023 – September 17, 2025

Dhaka, Bangladesh

- Developed the front end for the homepage, “about us”, and pricing pages of SaaS product **FoodQo (RMS) (Live)** using **Nuxt 2, Storyblok CMS, Nuxt/i18n, Tailwind CSS**.
- Built instructor course pages and contributed to an **e-Food Delivery platform (Nuxt 3, TypeScript, Pinia)** with **service-worker-based token refresh**, plus a tax-payment product for Eid-UI-Adha.

EDUCATION

Bachelor of Science (B.Sc.), Computer Science and Engineering

Daffodil International University – DIU

2021

Dhaka, Bangladesh

SKILLS

Languages: JavaScript, TypeScript, Go, C

Frontend: React, Next.js (Pages & App Router), Vue, Nuxt, HTML5, CSS3
